

# Gigaset T640 PRO IP PBX

Product Name: Gigaset T640 PRO IP PBX

Manufacturer: Gigaset

Model Number: T640

## Gigaset T640 PRO IP PBX

The Gigaset T640 PRO IP PBX communication platform supports up to 80 users (250 devices) and up to 40 parallel calls to ensure that every call is answered and your customers get immediate support. With the intelligent, built in voicemail, interactive voice response system and automatic call distribution (ACD) features customers will never have to wait and calls get directed to the right person in no time whether you are in or out of the office.

### Gigaset T640 IP PBX Key Features

- All-in-one communication platform with all user and voicemail licenses included in the base system
- Fully compatible with all Gigaset pro phones - desktop and cordless
- Personalized user interface for call maintenance on mobile, tablet or any web enabled device
- CTI for presence management of all team members
- Personal voicemail and an automated attendant

These are just some of the amazing features which the telephone system has on board to support your business. Finally, its compact fan less housing means it can locate in a systems room, or in the office itself. The Gigaset pro telephony system is available in two models, the T440 &ndash; supporting up to 100 devices and 20 parallel calls. And the amazing T640, supporting up to 250 devices and up to 40 parallel calls.
