

Product Name: AVM FRITZ!Box 7360

Manufacturer: -

Model Number: FZ-FON-WLAN-7360

AVM FRITZ!Box 7360

The AVM FRITZ!Box 7360 connects all devices in the home network with each other and with the Internet – at top speeds via VDSL (up to 100 Mbit/s) or ADSL2+/ADSL (up to 24 Mbit/s). The latest WLAN N standard combined with MIMO multi-antenna technology provides for optimum data transmission at speeds of up to 300 Mbit/s in the 2.4-GHz frequency band, offering maximum transfer rates and range for wireless surﬁng. Computers and other network devices can also be connected to the two gigabit and two Fast Ethernet interfaces.

AVM FRITZ!Box 7360 Key Features

- Integrated VDSL/ADSL2+ modem
- WLAN N router for up to 300 Mbit/s
- Router operation at a cable modem or with UMTS stick
- WLAN N in the 2.4-GHz frequency band
- Telephone system for Internet telephony and the analog ﬁxed-line network
- DECT base station for up to 6 cordless telephones
- Integrated answering machines, fax function including fax-to-mail
- Media server for music, images, and video in the network
- 2 USB 2.0 ports for printers and storage devices in the network
- WLAN guest access – secure surﬁng for friends and visitors
- Integrates iPhone and Android smartphones wirelessly in the home network and allows for ﬁxed-line and Internet telephony
- Simple setup over browser interface

FRITZ!Box 7360 is the ideal solution for starting out with home networking. It combines a powerful ADSL/VDSL modem and a WLAN N router compliant with the latest performance standard. The integrated DECT base station for up to six cordless telephones also makes the FRITZ!Box 7360 a high- quality telephone system. With an integrated media server, gigabit Ethernet and USB ports for printers or storage media, it sets new benchmarks for home networking.

AVM FRITZ!Box 7360 - Technical Specifications

Router Functions

- High-performance WLAN router with ﬁrewall/NAT, DHCP server, DynDNS client, UPnP
- Integrated DSL modem for VDSL and ADSL2+ (100 Mbit/s and 24 Mbit/s)
- Router operation even at a cable modem or with UMTS stick (UMTS/HSPA)
- Complete support for IPv6 in the home network and Internet
- Setup in web browser, independent of operating system, allows use with Windows, Mac OS and Linux computers
- Stateful Packet Inspection Firewall with port forwarding for secure web surﬁng
- Secure remote access to the FRITZ!Box network with VPN (IPSec)

Telephony Functions

- Telephone system for Internet telephony and the analog ﬁxed-line network
- DECT base station for up to 6 cordless telephones
- 1 a/b port for connecting analog telephones, answering machines and fax
- DECT voice transmission encrypted ex works for greater security
- Internet telephony even when the PC is switched oﬀ
- Supports HD telephony for natural sound
- Bandwidth management: calls and surﬁng over DSL in optimum quality

- DECT full eco mode reduces power consumption and transmitter strength

WLAN Functions

- WLAN radio networks according to 802.11n (up to 300 Mbit/s* per frequency band), downward compatible to WLAN 802.11g, and b
- WLAN N for use in the 2.4-GHz band
- Preconfigured WLAN encryption with WPA/WPA2 mixed mode, WPA2, WPA, WEP-64 or WEP-128
- AVM Stick & Surf: automatic security for wireless surfing
- WLAN pushbutton (to switch WLAN on/off; manually)
- Wi-Fi Protected Setup (WPS) for especially easy and safe WLAN connections at the touch of a button or by entering a PIN

Media Functions

- Media server makes music, pictures and videos in the network available to playback devices (SMB, FTP, UPnP-AV)
- Powerful processor for networked applications like IPTV, video on demand and music streaming

Connection Options

- Connection to VDSL, ADSL/ADSL2+ (Annex A and Annex B) and analog xDSL-line network
- 2 x gigabit Ethernet (10/100/1000 Base-T) and 2 x Fast Ethernet (10/100 Base-T) for connecting to PCs and game consoles
- 1 connection for analog phone, fax or answering machine
- 2 USB 2.0 ports for printers and storage devices in the network and for Stick & Surf

Price: £105.00
