Aastra M676 (KeyExtension 75D)

The premium keypad extension Aastra M676 adds an additional 20 softkeys (function and destination keys) to the Aastra 6775ip, each of which can be assigned functions in three levels.

The keys are flexibly labelled in the illuminated display. Each key also has a status LED. Up to three Aastra M676 extensions can be connected without the need for an additional power supply.
