

Aculab ApplianX 3G Video Gateway

Product Name: Aculab ApplianX 3G Video Gateway

Manufacturer: -

Model Number: -

Please Note: The Aculab ApplianX 3G Video Gateway has been discontinued. For an alternative, we highly recommend the Draytek Vigor 3900 High-Performance Router/Firewall Router

Aculab ApplianX 3G Video Gateway

ApplianX 3G Video Gateway builds upon the capabilities of ApplianX IP Gateway by additionally providing gateway capability between IP-based video streams and the 3G mobile network. This deployment-ready platform is suited to service centre and enterprise installations.

Product summary

- Stand-alone 1U, 19" rack mount appliance
- Dual redundant 100 BASE-T Ethernet connectivity for IP traffic
- Choice of 1, 2 or 4 E1/T1 trunk interfaces for TDM traffic
- IP and TDM connections via the front panel
- Easy to interpret status LEDs and switches on the front panel
- Remote management via SNMP

Applications

- Gateway 3G video phones to IP-based video conferences
- Gateway 3G video phones into IP-based interactive voice and video response (IVVR) services
- Access video mail and other video-enabled services for 3G phones
- Provide 'push' content to 3G mobiles (news and information feeds)
