Model Number: FSN-AP300-UK02

Altigen iFusion SmartStation Black Phone for iPhone

The iFusion SmartStation black is the first iPhone docking station for business. The iFusion is a complete mobility solution and comes with many advanced features that can improve the everyday use of business professionals.

- Ideal for business calls when you want to talk hands free with a high quality speakerphone designed specifically for the iPhone.
- Ideal for use in your home office
- Start a video conference using apps such as FaceTime or Skype
- Integrated dock charges your phone faster than USB
- Enjoy streaming music from your iPhone
- Compatible with iPhone PBX apps, such as Cisco Mobile 8.1, Avaya one-X Mobile, and MaxMobile for Microsoft Lync

When used with iPhone business PBX applications, the iFusion will save you money by eliminating the need for an expensive proprietary deskphone.

Altigen iFusion SmartStation Black Key Features:

- Integrated Bluetooth technology delivers rich audio quality
- Powerful full duplex speakerphone for hands free conversations
- Comfortable, ergonomically designed telephone handset
- Embedded iPhone dock provides power and battery charging
- USB port enables data synchronization with a Mac or PC

Works with iPhone 3G, 3GS, 4, and 4S.
