Product Name: Atcom IP-BRIM 4-Port BRI Asterisk PBX Appliance
Manufacturer: -
Model Number: IP-BRIM

Please Note: The Atcom IP-BRIM 4-Port BRI Asterisk PBX Appliance has been discontinued. For an alternative, we highly recommend the ZYCOO CooVOX U50 IP PBX.

The IP-BRIM is a complete Asterisk Appliance with four ISDN BRI TE ports. It is an embedded open source Linux system with built-in SIP/IAX2 proxy server and NAT functions. It provides a solid, uniform platform for ISDN BRI communications as well as VoIP communications. Targeting for SOHO user and SMB market with an easy to use graphical interface, IP-BRIM provides a cost-saving solution on their telecommunication/data needs. With IP-BRIM, company with branch offices in different countries can be easily combined together to work like a virtual single office through internet.System: Open Source uClinuxHardware:
