

Atcom IP08 8-port Asterisk IP PBX

Product Name: Atcom IP08 8-port Asterisk IP PBX

Manufacturer: Atcom

Model Number: IP08

Availability: In Stock

Please note: An understanding of both Linux and Asterisk command line is required for the successful configuration of the Atcom IP0x. VoIPon offers paid for support options for customers who experience difficulty configuring this PBX, which can be selected from the options below.

The IP08 is a complete Asterisk powered IP-PBX with eight FXO/FXS channels. It is an embedded system with built-in SIP/IAX proxy server and NAT functions. It provides a solid, uniform platform for traditional PSTN communications as well as VoIP communications.

Targeting for small and medium businesses (SMB) with an easy to use graphical interface, IP 04 provides a cost-saving solution on their telecommunication/data needs. With IP08, company with branch offices in different countries can be easily combined together to work like a virtual single office through internet.
