

Cisco Unified Video Camera

Product Name: Cisco Unified Video Camera

Manufacturer: Cisco Systems

Model Number: CP-CAM

Cisco Unified Video Camera

Supported by the Cisco Unified IP Phone 9971 and Cisco Unified IP Phone 9951. The Cisco Unified Video Camera delivers high-quality, affordable, scalable and interactive video communications in an integrated and compact ergonomic design. Enabling an increase in the speed of decision making, the Unified Video Camera enhances user experience with high-performance business video on your desk phone. Cisco Unified Video Camera Key Features:

- Interactive, high-performance H.264 business video elevates and personalizes communications
- Integrated, compact ergonomic design and auto-configuration option delivers visually pleasing and "plug-n-play" connection into phone USB port
- Delivers high performance video communications up to 30 frames-per-second (CIF standard) and up to 24 frames-per-second (VGA)
- Multi-party video communications with up to six parties presented concurrently on endpoint display (3 columns by 2 rows)
- Full screen and picture-in-picture options offer an enhanced and flexible user experience
- Digital software controls for pan/zoom and tilt functions deliver increased video image control
- Video mute to stop sending video at the local end adds convenience
- Two color options increase flexibility for global deployments
- Support on Cisco Unified Communications Manager and Cisco Unified Communications Manager Business Edition with System Release 7.1(3) and later
