

ClearOne Chat 150 (Cisco) IP Conference Phone

Product Name: ClearOne Chat 150 (Cisco) IP Conference Phone

Manufacturer: ClearOne

Model Number: CC-910-156-220

ClearOne Chat 150 (Cisco) IP Conference Phone

A speaker phone for small conference rooms or executive offices. The CHAT 150 connects to enterprise telephones, transforming them into high-performance conference phones. Users can still utilize the advanced features of their telephone, such as company directory lookup, and now enjoy rich, full-duplex audio performance that is far superior to the built-in speaker function on the phone. Also connects to PCs for VoIP applications. ADVANTAGES Enjoy vast improvement in speaker phone capability

- Built-in speaker function on the telephone is typically half-duplex with limited microphone and speaker range and performance
- CHAT 150 offers true full-duplex audio, three microphones for 360-degree pickup, and large speaker for unmatched audio performance

Continue to use call management features of existing phones, such as company phone directory, audio bridge, voicemail access, call transfer, etc. No need to pull additional lines into the room for conference phone capability. Connect to phones regardless of line connection type analog, digital, VoIP. Enjoy crisp, clear audio. Advanced ClearOne HD Conference™ audio processing technologies deliver remarkably rich, full audio for natural, effortless conversations:

- Distributed Echo Cancellation
- Noise cancellation
- Advanced automatic level management
- True full duplex performance allows user to listen and speak at the same time without audio cutting in and out

Three built-in microphones provide full 360-degree coverage up to 8 feet from device

Enable high-quality speaker phone capabilities on PCs or laptops

CHAT 150 also connects to laptops & PCs via USB for hands-free audio for:

- VoIP softphones
- Instant Messaging audio chats
- Web conferences
- Bridge audio from PC applications with audio on telephone for instant 3-way conference bridge
