ClearOne Chat 160 IP USB Skype Conference Phone

Personal/Group Speakerphone for SkypeA speakerphone for individual or small group use, the CHAT 160 connects to PCs and laptops for rich, hands-free calls with Skype. The CHAT 160 is completely full-duplex, contains HDConference and is the perfect addition to the office or conference room for greatly enhanced collaboration.ApplicationsAdvantages

- Provides high quality speakerphone capabilities on PCs or laptops: - Connect the CHAT 160 to PCs and laptops via USB for hands-free, full-duplex audio with Skype
- Hands-free flexibility and comfort: - Move around freely without being tethered with a headset - Avoid discomfort caused by prolonged headset use - Easily includes groups of participants on Skype calls
- Replaces the PCs speakers and microphone with a high-quality, full-duplex audio solution
- True plug-and-play operation
- Crystal-clear audio for video conferencing and streamed multimedia content
- Sleek industrial design complements the professional environment of any office or meeting room

Enjoy crisp, clear audio:

- Advanced HDConference audio processing technologies deliver remarkably rich, full audio for natural, effortless conversations: - True full-duplex performance allows users to listen and speak at the same time without audio cutting in and out - Distributed Echo Cancellation eliminates acoustic echo - Noise reduction identifies and removes ambient room noise - First mic priority turns down the microphones that are not in use - Advanced automatic level management automatically adjusts microphone levels
- Three built-in microphones provide full 360-degree coverage up to 8 feet from the speakerphone
- Easily manage audio for 1-6 call participants
- Provides rich audio from the far side participants
- Full bandwidth frequency response delivers better audio
