

CyberData VoIP Intercom with Video (011020)

Product Name: CyberData VoIP Intercom with Video (011020)

Manufacturer: CyberData

Model Number: 011020

CyberData VoIP Intercom with Video (011020)

The CyberData SIP-enabled Video Intercom is a Power-over-Ethernet (PoE 802.3af) and Voice-over-IP (VoIP) two-way access control device that allows you to communicate and monitor entry areas. The intercom is compatible with most SIP-based IP PBX servers. Its tamper-resistant design allows the unit to be mounted securely and safely.

Features:

- PoE 802.3af enabled (Powered-over-Ethernet)
- SIP compliant
- Dual-speed Ethernet 10/100 Mbps
- Adaptive full-duplex voice operation
- Network adjustable speaker volume
- Network adjustable microphone sensitivity
- Network downloadable firmware
- Dry relay contact for auxiliary control
- Door closure and tamper alert signals
- Color camera

Specification

VoIP Intercom with Video

Protocol

SIP RFC 3261 Compatible

Ethernet I/F

10/100 Mbps

Power Input

PoE 802.3af or +5V at 1A

Operating Temperature

-30 to 55C (-22 to 131F)

Payload Types

G711 A-Law and u-Law

Camera Type

1/4" CCD Color

Resolution/fps

640 x 480 @ 30fps max

Video Encoding

H.264

Video Sensitivity

1 lux

Regulatory Compliance

FCC Class A, UL 60950

Dimension

5" x 5" x 2.5" (H x W x D)

Warranty

2 Year Limited

Part Number

011020
