

# Digium D71 IP Phone with Icon keys

Product Name: Digium D71 IP Phone with Icon keys

Manufacturer: Digium

Model Number: 1TELD071LF

Digium D71 IP Phone with Icon keys (1TELD071LF)

Please Note: Digium IP Phones are PoE (Powered-Over-Ethernet) and do not include a mains Power Supply. If mains power is required, this can be added via the drop down menu above.

The Digium D71 features HD Voice, PoE, icon text keys and 6-line keys. The D71 comes with 10 digital rapid dial buttons, with real-time status information and busy lamp field indicators for 100 of your most important contacts. The Digium D71 IP Phone is designed for administrators or executives. The D71 was built by Digium specifically for Asterisk and Switchvox phone systems. Icon keys make it easy for international users.

Digium D71 Overview Digium IP Phones include unprecedented HD Voice and plug-and-play deployment at a price that fits any budget. With multiple line appearances, context sensitive soft keys, and advanced applications, you can access the information you need instantly. Digium's phones are the only phones that allow you to take full advantage of the flexibility and customization of Asterisk and Switchvox.

Integrated applications that come standard on Digium IP Phones include voicemail button, call log, contacts, phone status, user presence, parking, and call metrics. The Digium phones provide simple intuitive access to a wealth of information.

Digium phones support plug and play provisioning. Simply plug the phones in, automatically discover your Asterisk or Switchvox server, select the user, and start talking. Digium phones make it easier to do full office installs too. Simply scan a barcode from the box and the phone is instantly linked to a Switchvox user.
