Your upgrade instructions will be delivered via email the same business day or on the following business day if you order outside of business hours. Once your order is complete, a button to activate the upgrade will appear in the Updates area of your Switchvox Home Edition web administration tools. Click the button and 30 seconds later, your system will be updated and none of your configuration will be changed or lost in the process.

The SOHO CD-ROM is a full install of Switchvox SOHO.
