Product Name: FireBrick FB6502 VoIP SIP Switch

Manufacturer: -

Model Number: FB6502

FireBrick FB6502 VoIP SIP Switch
The FireBrick FB6502 VoIP SIP Switch is designed to provide the core VoIP switch/routing capability for SIP and media for use by an ITSP. Additional RADIUS based applications (typically running under linux) provide external authentication for registration, routing logic for calls, and accounting for call logs and billing.
