

Gigaset C610H DECT Handset

Product Name: Gigaset C610H DECT Handset

Manufacturer: Gigaset

Model Number: C610H

Please Note: The Gigaset C610H DECT Handset has been discontinued. For an alternative, we highly recommend the Gigaset C430H.

Gigaset C610H DECT Handset

The Gigaset C610H Handset is equipped with many practical features for busy families with children such as a direct call function that enables children to reach a designated number with just one button press. Also included is anonymous call silencing and a day/night mute switch to keep sleeping babies – and adults – undisturbed, and an integrated baby phone with a selectable talk-back function. The colour display of the Gigaset C610H DECT Handset is easy to read and navigate. With radiation-free ECO Mode Plus1, the Gigaset C610H is an environmentally friendly addition to your home. Gigaset C610H DECT Handset Key Features

- Large TFT colour display
- Day/night switch mutes handset's ringer
- Text messages with up to 612 characters
- Radiation-free ECO Mode Plus1
- Enhanced family features: direct call, anonymous call silencing and integrated baby phone with talk-back option
- Brilliant HSP® sound quality, even when talking hands-free
- Long talk/standby time of up to 12/185 hours
- Easily expandable by up to 6 handsets

For a handset with user-friendly features that are family-focused, discover the Gigaset C610H. Simple to use All your conversations are relaxed on the Gigaset C610H, because you never have to worry about the handset's battery life. With a long talk time of up to 12 hours and standby time of up to 185 hours, you can talk as long as you like and pick up conversations at any time. The Gigaset C610H is also very easy to handle, with its large TFT colour display and modern user interface with jumbo font. If you need to give someone a short message that doesn't require talking long, simply send a text message: on the Gigaset C610H, you can send text messages with up to 612 characters. Made for the family Family members both big and small use the Gigaset C610H with pleasure, because it is easy to use and hosts a variety of practical functions. Activate the direct call button to allow children to reach an external number with just one button click. You can also block unknown callers with anonymous call silencing. The baby phone feature lets you designate a number to be called if the volume in the baby's room reaches a certain level. This can be an internal number, if you are sitting in the next room, or an external number, if you are out of the house. Connect with your baby immediately by activating the selectable talk-back function, which projects your voice over speakerphone. To keep your nights peaceful, the Gigaset C610H has a day/night switch that mutes the handset's ringer while you sleep. Tailored to your needs The family-focused Gigaset C610H is flexible, allowing you to adjust your home communication to your individual requirements. Easily add up to 5 extra handsets in total to your home phone. The Gigaset C610H also has several ringtones, which you can program for 6 different VIP groups – making these contacts immediately recognizable when they call. Brilliant to hear The Gigaset C610H also has a hands-free function that lets you talk over speakerphone while you multitask – also in brilliant sound. With this sound technology, you won't miss a word of what your calling partners say on the Gigaset C610H.
