## Gigaset E500H DECT Handset for Hearing / Seeing Impaired

Please Note: The Gigaset E500H DECT Handset has been discontinued. For an alternative, please see the Gigaset IP Handset Range.

The Gigaset E500H DECT Handset for Hearing / Seeing Impaired is an intuitive handset designed for true calling comfort. The E500H has large keys on its illuminated keypad, with a large font size on the high-contrast display. This means you can effortlessly navigate the menu and make calls. Gigaset E500H DECT Handset for Hearing, Seeing Impaired Key Features

- Hearing aid compatible
- Phonebook with space for up to 150 entries
- Large keys for easy handling
- Easy volume control via the side key
- ECO Mode Plus with no radiation
- 4 speed dial keys on handset
- Enhanced acoustics and hand-free talking in brilliant sound HSP&trade; quality
- Long talk and standby time of up to 25 and 240 hours, respectively
- Optimal readability on the illuminated, high-contrast display with large font size
- Caller ID2 with name and number

Adjusting the volume to meet your needs is easy: the handset offers built-in easy volume control via a side key. Everyone can enjoy calling with the Gigaset E500H: it comes with enhanced acoustics. And you can even call hands-free with brilliant HSP&trade; sound quality. Furthermore, radiation-free5 ECO Mode Plus turns off the transmitting power when the phone is in standby. Exceptionally comfortable design and easy-to-use features make the E500H the truly intuitive handset for calling that's as pleasurable as possible.

### Easy to use

Well-separated, large keys on the Gigaset E500H's illuminated keypad make dialling the numbers of your friends and family so much simpler. The whole family enjoys optimized readability on the display with large font size. Four speed dial keys on the handset grant quick and convenient access to the numbers you use most.

### Enhanced acoustics with brilliant sound

Thanks to enhanced acoustics, calls sound better on the Gigaset E500H. Hearing aid compatibility means that truly everyone can enjoy calling. Moreover, with the handset's side key for easy volume control, you can easily turn the volume up or down. Plus, with the simple push of a button, you can call hands-free for extended freedom of movement. As always, you'll enjoy all your chats on the Gigaset E500H in brilliant HSP&trade; sound quality.

### Delivers the right details

Caller ID2 shows you precisely who's calling just by looking at the Gigaset E500H's

# Gigaset E500H DECT Handset for Hearing, Seeing Impaired

display, where the caller's name and number are shown in large font size. The handset also comes with a phonebook that stores up to 150 entries. This intuitive handset offers a long talk time of up to 20 hours and long standby time of up to 240 hours – giving you ample time to enjoy comfortable conversation.

ECO DECT: Pure energy savings and radiation-free<sup>1</sup>

The energy-saving power supply of the Gigaset E500H consumes less electricity<sup>3</sup>, so it's kinder to the environment, and kinder to your wallet.

Like all Gigaset cordless phones, it variably reduces the transmitting power from the handset to base station depending on their distance apart. You can also reduce the transmitting power of the Gigaset E500H's base station by 80%<sup>4</sup> simply by selecting the ECO Mode. Furthermore, radiation-free<sup>5</sup> ECO Mode Plus turns off the transmitting power when the phone is in standby.

If you are looking for an intuitive handset that is comfortable and easy to use, then the Gigaset E500H is the best addition to your compatible base station.

1 The DECT transmitting power is switched off when handset is in idle mode – when all registered handsets support ECO Mode Plus. 2 Dependent on country, network, operator 3 Compared to conventional Gigaset base stations 4 For all registered handsets – in comparison to when ECO Mode is not activated and to our conventional cordless phones. 5 The DECT transmitting power is switched off for all registered handsets – when all support ECO Mode Plus.
