

# Gigaset L410 - Hands-free clip for cordless phones

Product Name: Gigaset L410 - Hands-free clip for cordless phones

Manufacturer: Gigaset

Model Number: L410

## Gigaset L410 - Hands-free clip for cordless phones

The Gigaset L410 has ECO DECT features which make it environmentally friendly, energy saving and reduces radiation. The L410 also helps to enhance your home telephony with a higher level of flexibility. The L410 Hands-free clip is designed for intuitive handling. It is possible to transfer calls to the Gigaset L410 from your DECT-GAP handset with one button click or take calls directly on the clip.

### Gigaset L410 Key Features

- Clip on and move with more flexibility while you call
- Hands-free talking in perfect sound quality
- One-click call transfer from handset or take calls directly on clip
- ECO DECT features2
- Lightweight (~30g) and conveniently clips on
- Use two hands-free clips to talk simultaneously
- Intuitive volume controls
- LED status signals
- Compatible with Gigaset and other DECT-GAP phones
- Range of 50m indoors and 300m outdoors

### Perfect sound and clear indicators

**Range up to 50m**  
Move freely and talk hands-free at home within a range of 50m.

**Multitasking**  
Talk freely while doing other things.

**Wearable**  
Simply click onto your clothes.

Ultimate flexibility With the Gigaset L410 you never get a stiff neck or an achey ear while talking hands-free. Multitasking while phoning becomes easier than ever. Simply clip the Gigaset L410 to the neckline of your top and begin your favourite home activities while enjoying calls in perfect sound quality. Unlike a headset that rests on your ear or head, the Gigaset L410 is a wearable speakerphone. You forget you're even wearing it while you freely move and chat.
