

# Grandstream GXV3140 WiFi USB Adapter

Product Name: Grandstream GXV3140 WiFi USB Adapter

Manufacturer: Grandstream

Model Number: GXV3140-WIFI

Grandstream GXV3140 WiFi USB Adapter

Please Note: The Grandstream GXV3140 WiFi USB Adapter has been discontinued

The new Grandstream GXV-3140 WiFi USB adapter fully complies with the latest 802.11n standard as well as legacy 802.11b/g standard. It supports low power management, and various security standards such as WEP 64/128, WPA (PSK), WPA2 (PSK), TKIP, and AES. The wireless adapter can be plugged into the GXV3140 via the USB port located on the right hand side of the phone for connection speeds of over 150Mbps. Now GXV3140 users can have video call for FREE with IPvideoTalk&trade; wherever there is an available WiFi network. Business travelers can use the phone to conduct video conference with clients anywhere they can find WiFi connection to Internet on the road and residential users can stay connected with friends and families through video chat anywhere in their home where there is WiFi coverage from their home wireless router.
