

Konftel 300IP Conferencing Microphones

Product Name: Konftel 300IP Conferencing Microphones

Manufacturer: Konftel

Model Number: KTEL_300IP-EM

Konftel 300IP Conferencing Microphones

The Konftel 300 extra microphones are designed exclusively for use on the Konftel 300 conference system. Supplied in the pack are two microphones which simply plug directly into the Konftel 300 conference system and are then ready to use. These microphones are used to significantly increase the coverage of the conference system from 30m² to 70m².

Two Cable Lengths Supplied Designed to compliment the modern looks of the Konftel 300 conference system, the extra microphones sit discreetly on top of the desk. Once connected to the conference unit by either the supplied 1.5m or 2.5m cable, the microphones will reach the far ends of a large conference room table and pick up the voices of people who would normally be too far away from the main units microphones to be heard. **Specification Additional Features:** Supplied With 2.5 & 3.5 Metre Connection Cable Connection Type: Wired Guarantee: 2 Year Compatibility The Konftel 300 extra microphones are compatible for use with the Konftel 300 conference system.
