

# Linksys SPA901 IP Phone

Product Name: Linksys SPA901 IP Phone

Manufacturer: -

Model Number: SPA-901-C

Availability: Discontinued Please note that the Linksys SPA901 has been discontinued. We recommend the Cisco SPA 301 as a good alternative.

Comprehensive Interoperability and SIP Based Feature Set

Based on the SIP Standard, the SPA901 has been tested to ensure comprehensive interoperability with equipment from VoIP infrastructure leaders enabling service providers to quickly rollout competitive, feature-rich services to their customers.

Linksys SPA-901 Entry Level SIP VOIP Phone

With hundreds of features and configurable service parameters, the SPA-901 addresses the requirements such as:

- Easy Station Moves
- Share Line Appearances and more

Carrier-Grade Security, Provisioning and Management

The SPA-901 uses standard encryption protocols to provide secure remote provisioning and unobtrusive in service software upgrades. Linksys secure remote provisioning tools include detailed performance measurement and troubleshooting features, enabling network providers to deliver high quality support to their subscribers. Remote provisioning also saves service providers the hassle and expense of managing, pre-loading and re-configuring customer premise equipment (CPE).
