

OpenVox A400P01 - 1 FXO

Product Name: OpenVox A400P01 - 1 FXO

Manufacturer: OpenVox

Model Number: A400P01

OpenVox A400P01 - 1 FXO

The A400P01 is an OpenVox A400P bundled with 1 FXO module.

You can also add FXO-100 or FXS-100 modules to use with this product according to your requirements.

OpenVox A400P01 is designed to be fully compatible with the TDM400P Asterisk Analog Telephony card.

The FXO-100 (FXO) module allows the A400P card to terminate analog telephone lines (POTS).

The FXS-100 (FXS) module allows the A400P card to terminate analog telephones.

Key Features and benefits of the OpenVox A400P01 - 1 FXO

- Scalable: Just add additional cards to extend the system.
- Easy to use: Full software and hardware compatible with TDM400P.
- Modular design: Can upgrade at any time by adding extra FXO or FXS modules up to a total of 4 per card. (A400P01 comes with one FXO module.)
- Both 3.3v or 5v PCI slots can be used with this card.
- Module Pin to Pin compatible with X100M and S100M. You can use X100M/S100M modules on this card, or use FXO-100/ FXS-100 Modules from OpenVox.
- Excellent value: High quality at a low price.
- Application ready: Use Asterisk to build your IP-PBX system.
- RoHS Compliant.
- Certificates: CE, FCC
- Five year warranty
