OpenVox AE2410P01 24 Port Analog PCI card + 1 FXO400 module with Echo Cancellation

Product Name: OpenVox AE2410P01 24 Port Analog PCI card + 1 FXO400 module with Echo Cancellation

Manufacturer: OpenVox

Model Number: AE2410P01

OpenVox AE2410P with Onboard Echo Cancellation

Please Note: This is a PCI Card. Please make sure your motherboard/server is compatible with this product.

OpenVox AE2410P is a new generation analog card with Octasic Hardware Echo Cancellation Module on board. With the interchangeable quad-FXS and quad-FXO modules, AE2410P can eliminate the requirement for separate channel banks or access gateways. By installing with up to 5 of this new card in one server, small and medium businesses can easily benefit from its outstanding voice quality and feature-rich system. Features:

- Support 32-bit 33MHz PCI and fully PCI 2.3 compliant
- Support 32 bit bus master DMA data exchanges across PCI interface at 132 Mbytes/sec
- Support Octasic DSP, 1024 taps/128 ms tail per channel on all 24 channel densities
- FPGA design, upgradeable firmware onsite
- Scalable: Just add additional cards to extend system

Standards Compliancy

- Rohs compliant
- Certificates: CE and FCC
- Five Year Warranty!

Price: £405.00
