

OpenVox D110P PCI ISDN PRI Card

Product Name: OpenVox D110P PCI ISDN PRI Card

Manufacturer: OpenVox

Model Number: D110P

OpenVox D110P PCI ISDN PRI Card

D110P is a single span E1/T1/J1 digital line telephony product.

D110P is a high-performance, cost-effective single span digital voice card. It provides a compact and powerful interface to asterisk that can support E1/T1/J1 and PRI interface.

The D110P supports industry standard protocols including MFR2, PRI, Cisco PPP and Frame relay etc. The low profile allows it to fit within a 2U rack-mount case.

Features:

- 100% hardware compatible with TE110P. Use same device driver without any modify.
- Industry Standard: PCI 2.2. Both 3.3 volt and 5 volt pci slot can be used.
- RJ-45 shielded connector.
- T1/E1/J1 software configurable.
- Certificates: CE and FCC
- RoHS compliant
- Five year warranty
