OpenVox DE115E PCI ISDN PRI Card with H/W Echo Cancellation

Product Name: OpenVox DE115E PCI ISDN PRI Card with H/W Echo Cancellation

Manufacturer: OpenVox

Model Number: DE115E

Please Note the OpenVox DE115E has now been discontinued. The DE115E is a new version of single T1/E1 card that has hardware echo cancellation on board. The EC100 echo cancellation is an Octasic DSP-based module. The DE115E is a new version of single T1/E1 card that has hardware echo cancellation on board. The EC100 echo cancellation is an Octasic DSP-based module. The EC100 provides a certified carrier-grade algorithm that has been labeled a benchmark for echo cancellation for OpenVox. With the improved I/O speed, the card reduces CPU usage and increased card density per server. DE115E is fully compatible with Asterisk applications. The open source driver supports an API interface for custom application development. DE115E supports industry standard telephony and data protocols, including Primary Rate ISDN (both N. American and Standard Euro) protocol families for voice, PPP, Cisco, HDLC, and Frame Relay data modes. Both line-side and trunk-side interfaces are supported. About OpenVox EC100-32 Module The OpenVox EC100-32 enables users to eliminate echo tails up to 128ms or 1024 taps across all 32 channels in E1 mode or 24 channels in T1/J1 modes. Further, this module takes advantage of the Octasic Voice Quality Enhancement to provide superior sound quality on all calls. Benefits: World recognized & deployed best voice quality Features:

- 128ms tail/channel (on all channel densities)
- Octasic Music Protection
- Adaptive Noise Reduction
- Automatic Level Control (G.169)
- Field upgradeable algorithm
- V.25 / V.8 answer tone (w/ and w/o phase reversal)
- DTMF as per Q.24

RoHS compliant Certificates: CE and FCC Five Year Warranty!

Price: £330.60
