

OpenVox FXOS200 Failover Module

Product Name: OpenVox FXOS200 Failover Module

Manufacturer: OpenVox

Model Number: FXOS200

OpenVox FXOS200 Failover Module

The FXOS200 is a Dual-channel module, which builds one FXO and one FXS channel with failover capability. When PBX system is down, PSTN line connecting FXO will automatically switch to analog phone connecting with FXS. Please note that the FXOS200 is used on A400E/A400P/A400M/A800P/A1200P, except for the 11th port and 12th port of A1200P. Key Benefits:

- Modular Design: Each FXOS200 with one FXO and one FXS channel
- The pin of FXOS200 is compatible with FXO-100 and FXS-100
- FXOS200 is used on A400E/A400P/A400M/A800P/A1200P
- Simplified Asterisk PBX Failover solution with high reliability

Standards Compliance

- Rohs compliant
- Certificates: CE and FCC
- Five Year Warranty!

Certified by trixbox CE and Elastix
