Product Name: OpenVox VS-CHS-2120 Unified Communication Platform

Manufacturer: OpenVox

Model Number: VS-CHS-2120

OpenVox VS-CHS-2120 Unified Communication Platform

The OpenVox VS-CHS-2120 Unified Communication Platform (UCP) is an ideal solution to integrate data, voice and video in one product for SME market. It is a 2U combination of almost all features in VoIP gateway and IPPBX, but having more unparalled flexibility, reliability and expansibility with cost effective.

OpenVox VS-CHS-2120   Key Features

• Passive Backplane
• Hot-pluggable line card
• Swappable fan module (2U model)
• Avoid single point of failure
• Star topology Bus
• Smart Module (Build in CPU on each line card)
• Compact PCI long life backplane connector
• Wide software selection: Asterisk, Elastix, Freepbx, 3CX,etc
• Power：AC 100V~120V（110V）; AC 200V~240V（220V）;
• Temperature: 0~75℃ (Operation) -40~85℃(storage)
• Humidity: 10~90% NON-CONDENSING
• Combination of GSM/FXS, E1/T1/J1, CPU Interface
• Size: 43cm*33cm*8.8cm
• Weight: 8500g
• 3-Month "No Questions Asked" Return Policy
• One Year Warranty
• Optional modules: FXS/FXO GSM BRI T1/E1 Processor

The OpenVox UCP is more than just a VoIP gateway or an IPPBX. It is a 2U hybrid unified communication platform with both VoIP gateway and IPPBX functions. You can simply customize your IPPBX and VoIP Gateway solutions in one box with different interface modules. The UCP supports FXS, GSM and E1 interface modules and CPU board modules. The CPU board module comes with X86 architecture and works as an independent IPPBX system, supporting both Linux and Windows. The UCP supports two independent IPPBX systems in one box. Thus one system can be set as a master IPPBX system and the other as a redundant system. All data storage can be saved synchronously in the two systems. The UCP brings you the real all-in-one solution.

OpenVox VS-CHS-2120 - Technical Specifications

General Features

• Chassis and Ethernet switch adapter VS-CHS-2120 2U 19 inch rack mount 12-slots chassis VS-ECU-M3110 14 port 10/100M Ethernet switch adapter for VS-CHS-2120
• GSM VoIP adapter VS-GGU-E1M400 4 port GSM VoIP gateway adapter (SIM840 Module) VS-GGU-E1M401 4 port GSM VoIP gateway adapter (M35 Module)
• FXS VoIP Adapter VS-AGU-E1M800-S 8 port FXS VOIP gateway adapter T1/E1/J1 Interface adapter*1
• VS-EIU-1004 4 port T1/E1 adapter VS-EIU-1004E 4 port T1/E1 adapter with hardware echo cancellation VS-EIU-1002 2 port T1/E1 adapter VS-EIU-1002E 2 port T1/E1 adapter with hardware echo cancellation VS-EIU-1001 1 port T1/E1 adapter VS-EIU-1001E 1 port T1/E1 adapter with hardware echo cancellation
• Processor adapter VS-CCU-N2600AH-H Intel Atom N2600 Processor adapter with 2.5" HDD mount kit*2
