

# Polycom Kirk 600v3 Multi-Cell License

Product Name: Polycom Kirk 600v3 Multi-Cell License

Manufacturer: Spectralink

Model Number: KWS600V3-MULTIPIN

## Polycom Kirk 600v3 Multi-Cell License

The KIRK Wireless Server 600v3 is a scalable solution capable of registering up to 1500 wireless users making it an excellent choice for small and medium-sized businesses across a wide range of vertical markets. Using an IP interface to the PBX, power over Ethernet and IP routing between the wireless servers, the KIRK Wireless Server 600v3 is a cost-effective system that allows for re-use of existing network infrastructure and components.

Please see the information below if you are not sure what size system or type of technology suits your needs most:

- When to choose a Polycom KIRK solution or a Polycom Wi-Fi solution
- The benefits of a choosing a Polycom mobility solution
- Polycom KIRK & SpectraLink business grade on-site mobility solutions

The KIRK Wireless Server 600v3 can be deployed as either a single-cell or a multi-cell solution and can be adjusted to fit the exact size and needs of the individual customer. A single-cell version, consisting of one KIRK Wireless Server 600v3 and up to 6 KIRK Repeaters, can support up to 35 users. When there is a need for more than 35 users at a location, additional KIRK Wireless Server 600v3s can be installed in a multi-cell configuration. Up to 256 radio units (a mix of KIRK Wireless Server 600v3s and KIRK Repeaters) can be used to provide the necessary radio coverage. A multi-site solution can be further customized to include number of single-cell and multi-cell deployments depending on the size of each individual location. A KIRK Wireless Server 600v3 is installed directly on the LAN and must be managed as part of the corporate network. Features all protocols (Cisco Skinny, H.323 (innovaphone) and SIP:

- Up to 1500 wireless users
- Up to 256 KIRK Wireless Server/3 in one network cluster
- Synchronisation over the air
- Built-in redundancy
- Power over LAN
- One RJ45 for 100 Megabit connection to Ethernet
- Browser configured - no additional SW needed
- Codec G.711 and G.729

**Price: £166.70**
