   Please note the SoundPoint IP 320 has been replaced by the SoundPoint IP 321
Please note the SoundPoint IP 330 and 320 are PoE and require a power supply which can be purchased seperaterly here.   Entry-level IP phones with excellent sound quality, an enterprise-grade feature set and that deliver remarkable value:

• The SoundPoint IP 320 two-line SIP phone delivers superb sound quality and offers a wide range of supported Business VoIP telephony features.
• The SoundPoint IP 330 incorporates dual-port 10/100 Ethernet switch for LAN and PC connection.
• The SoundPoint IP 320 phone has a single 10/100 Ethernet port, therefore its intended applications include common areas, such as hallways, lobbies and break rooms, as well as various wall-mounted deployments.

Exceptional Sound Quality
The Polycom SoundPoint IP 330 and 320 phones feature a full-duplex IEEE 1329 Type 1-compliant speakerphone with Polycom's reknowned Acoustic Clarity Technology that delivers superb sound quality and enables echo-free and noise-free conversations that feel as natural as being there.
Enterprise-Grade Feature Set
The SoundPoint IP 320 and 330 phones deliver a full feature set through an intuitive user interface - encompassing both traditional business telephony features such as call hold, park, transfer, pick-up, and three-way local conferencing, as well as more advanced capabilities like shared call/bridged line appearance, support of XHTML applications and distinctive call treatment.
Efficient Installation and Provisioning
The SoundPoint IP 320 is engineered to for ease-of-installation, configuration and upgrade as simple and efficient as possible. The phone's standard base can be reversed to become a wall mount, eliminating the need for a separate accessory.   The built-in IEEE 802.3af PoE circuitry and a dual-port Ethernet switch (SoundPoint IP 330 phone only) enable flexible deployment options and savings on cabling cost.   The Polycom IP 320 and 330 phones support remote, zero-touch provisioning and upgrade from a variety of servers, including FTP, TFTP, HTTP, or HTTPS. To ensure reliable, uninterrupted performance, the phones support boot and call server redundancy.
Broad Interoperability - Maxium Versatility
The SoundPoint IP 320 and 330 phones have been tested and certified to deliver extensive feature support and comprehensive interoperability with leading SIP-based PBX platforms by Digium, BroadSoft, Sylantro, Interactive Intelligence/Vonexus, and other Polycom Technology and Interoperability Partners2. The IP320 and IP 330 phones also interoperate with Microsoft Live Communications Server (LCS) 2005 for telephony and presence. This broad interoperability provides Polycom customers a wide choice of supported standards-based call server solutions with which the phones can be deployed.
