Polycom SoundStation Connect

The Polycom SoundStation Connect sets a new standard for UC conferencing performance and convenience in an elegant, easy to use package. SoundStation Connect is a USB-based audio conference solution for small to midsize rooms that provides superior acoustic performance in group settings.

Polycom SoundStation Connect Key Features

- Ideal for organizations and teams using computers as their communications and collaboration solution
- Clear conversations with legendary performance, HD Voice, exceptional room coverage
- Easy to deploy with plug-and-play capability and no software driver requirement
- Broad interoperability that works with any UC soft phone application on any computer
- Easy to use with simple UI that includes volume up/down and mute
- Easily transportable with a compact design that's perfect for meetings on the go

The SoundStation Connect can be paired with any UC soft phone application (such as Microsoft Lync, IBM Sametime, Skype®; or GoogleTalk®;) running on any computer (Mac, Windows or Linux) without the need for software drivers. Simply plug it in and enjoy clear and natural conversations enhanced by Polycom HD Voice.
