

# Polycom SoundStation IP7000 IP Conference Phone

Product Name: Polycom SoundStation IP7000 IP Conference Phone

Manufacturer: Polycom

Model Number: IP 7000

## Polycom SoundStation IP7000 IP Conference Phone

The Polycom SoundStation IP 7000 is a breakthrough conference phone that delivers outstanding performance and a robust feature set for SIP-based VoIP platforms. Connect two units together for increased loudness and microphone pickup, as well as multiple call control interfaces in the conference room.

### Polycom SoundStation IP7000 Key Features:

- Polycom HD Voice – unparalleled clarity to make your conference calls more efficient and productive - calls at up to 22 kHz, an industry first, for conference calls that sound as natural as being there.
- Polycom's patented Acoustic Clarity Technology - delivering the best conference phone experience with no compromises.
- 20-foot microphone pickup (that's 100% increase on previous generation) - and even more with optional expansion microphones or multi-unit connectivity to reach all corners of the conference room.
- Automatic Gain Control - intelligently adjusts the microphone sensitivity based on where participants are seated in the conference room.
- Unparalleled flexibility and expandability.
- Large, high-resolution LCD display for advanced applications - includes XHTML microbrowser - enables new applications that make conference calling easier and more functional.
- Integrated Power over Ethernet (PoE)
- Strong, robust SIP software - leveraging the most advanced SIP endpoint software in the industry, with advanced call handling, security, and provisioning features.
- Robust interoperability - compatible with a broad array of SIP call platforms to maximize voice quality and feature availability while simplifying management and administration

Connect up to two optional expansion microphones to a single phone to ensure close proximity for everyone in the room. In the future, you will be able to connect the SoundStation IP 7000 to the Polycom HDX high-definition video conferencing system for a complete, integrated voice and video conferencing solution.

In the SoundStation IP 7000, Polycom has combined its rich history in voice conferencing and VoIP technology to develop a groundbreaking new conference phone that is the clear choice for SIP-enabled environments. It shares the same SIP phone software with Polycom's award-winning SoundPoint IP products – the most comprehensive, reliable and feature-rich SIP products in the industry, with proven interoperability with a broad array of IP PBX and hosted platforms.

Plus, the SoundStation IP 7000 features a large multi-line High Resolution LCD display with a full XHTML microbrowser, turning your conference phone into a robust applications platform for your conference room. Bundled applications include advanced three-party conference features and LDAP corporate directory integration.
