VXi Tria V and V DC – For use with VXi amplifiers and direct-connect cords

The VXi Tria is the single headset solution that gives users a multiple choice. Tria's selection of three wearing styles makes it easy for buyers and supervisors and perfect for any user preference. Whether you like a headband, neckband or earhook, or like to alternate between all three options, Tria gives you the choice you want. But that's not all you get with Tria. Like all VXi headsets, Tria is equipped with high-performance, noise-canceling microphones and high-quality speakers, for dependable, professional-grade communications on both ends of the call. And though they're all-day comfortable and lightweight, Tria headsets are also durably constructed, ready to handle day-after-day use in contact centers and offices. All of which makes Tria a reliable and cost-effective solution for any organization that depends on their headsets for clear, consistent communications. Tria's combination of advanced technology and smart design brings benefit after benefit.

VXi Tria V and V DC Key Features

- Advanced noise canceling improves communication by cutting nearly 90% of background noise.
- Wideband audio for natural, easy-to-understand sound.
- UC-ready to fit right into your Unified Communications strategy.
- Flexible microphone boom stays where you put it for optimal sound quality.
- Real-world durability and comfort.
- Compatible with VXi, Plantronics® or GN Netcom®/Jabra® amplifiers and direct-connect cords.
- Two-year warranty.

VXi Tria V and V DC - Technical Specifications

Benefits

- Advanced noise-canceling microphone blocks background noise.
- Adjustable headband clicks in place for a perfect, comfortable fit.
- Kink-free gooseneck microphone boom stays where you position it.
- High-quality speaker so you never miss a word.

Advantages

- Comfortable, satisfied users: Tria's three wearing styles give users a choice of custom-fit options to meet any preference.
- Increased productivity: Advanced noise-canceling and a high-quality speaker for "hear you the first time" communication.
- Decreased distractions: The adjustable headband and kink-free, gooseneck microphone boom stay where you put them.
- Safety first. Built-in hearing protection helps to avoid sudden and unexpected sound spikes.
- Competitive compatibility: Tria headsets are available in three different quick-disconnect styles for compatibility with VXi, Plantronics® or GN Netcom®/Jabra® amplifiers and direct-connect cords.
