Valcom VIP-148L-BGE-IC Talkback Horn - Beige

The Valcom VIP-148L-BGE-IC Hornspeaker is a beige IP Paging horn capable of 2-way audio for use with InformaCast systems. It is also offered in marine white, gray, and SIP enabled models. The VIP-148L IP Talkback Horn enables two-way handsfree voice access to a single location over an IP-based network. This allows a page zone extension anywhere on the network. The VIP-148L audio level is electronically adjusted via software. A call switch input connection is provided for call initiation, and a line level Auxiliary Input allows connection to a local audio source. Power is provided to this Valcom Horn via a Power over Ethernet (PoE) switch meeting the 802.3af specification.

Valcom VIP-148L-BGE-IC Hornspeaker Features:

- PoE (802.3af) - No Local Power Required
- Very High-Efficiency Ensures Penetration at Lower Energy Consumption
- Weather-Resistant
- Include Long Line Extender Allowing Cabling Up to 1200 Feet
- Offer Peer-to-Peer Operation
- Line Output Supports Amplified Speakers
- Optional Wall Volume Controls Available
- Backboxes Available for Some Speakers
