

Valcom VIP-A12DS IP PoE 12" Analog Clock

Product Name: Valcom VIP-A12DS IP PoE 12" Analog Clock

Manufacturer: -

Model Number: VIP-A12DS

Availability: In Stock

Valcom VIP-A12DS IP PoE 12" Analog Clock

Keeping time accurate and consistent throughout a large facility is easy with Valcom's new IP PoE Clocks - simply add a clock to any location on the network via RJ-45 connection. Power to the clock is provided by Power-Over-Ethernet (PoE) eliminating the need to add costly power outlets. Installation is easy and inexpensive and allows quick and easy relocation of clocks throughout a facility.

- Consistent and accurate time across an organization maintains efficiency and smooth company operation.
- Manufacturing Facilities – Synchronized time promotes adherence to schedules keeping the entire team consistently meeting productivity goals
- Healthcare - Daily healthcare requires synchronized time schedules which are critical for patient care and timely delivery of medications.
- Schools & Universities - Accurate timekeeping is crucial in transitioning students from one class to the next. Since access control/security systems lock at certain times all across a campus, synchronized campus-wide timing becomes critical.

Valcom IP PoE Clock Features:

- Set Automatically by NTP (Network Time Protocol)
- 10/100BaseT Ethernet Compatible
- DHCP or Static IP Addressable
- Power over Ethernet (IEEE 802.3af)
- No Master Clock Required

Simple User Control for:

- IP Configuration
- NTP Server Address
- Time Zone Offset From UTC, Daylight Savings Time
- Time Display, 12/24 Hour Format
- Status Reporting
- Easily Up-Load Firmware Upgrades
- Industrial Grade Metal Housings
