

# snom EHS Advanced Wireless Headset Adapter (Refurbished)

Product Name: snom EHS Advanced Wireless Headset Adapter (Refurbished)

Manufacturer: Snom

Model Number: REFURB-SNOM-EHS

snom Wireless Headset Adapter - EHS Advanced (Refurbished)

Please Note: This snom EHS is refurbished. There is slight damage to the packaging only, and stock is limited.

The snom EHS Advanced Headset Adapter or 'Electronic Hook Switch' provides the interface between a snom VoIP phone and a compatible wireless headset. It is the modern equivalent of the mechanical handset lifter used by wireless headsets.

The snom VoIP phone can signal to the wireless headset when the phone is ringing so you can answer and hang up calls remotely, therefore there is no need for a clunky handset lifter.

snom EHS Advanced Wireless Headset Adapter Key Features

- Compatible with the snom 3XX, 8XX and the new 7XX series
